(Designated by Osaka City)

Mobility support for disabled person	No.2761500178
Disabled children support	No.2751520079

Designated care organization based on the Welfare Law

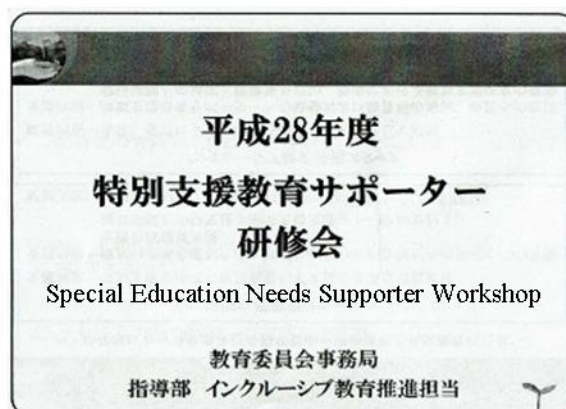

The concept is "sound", "play" and "10 attributes".
We are developing an education program that uses various programs that adheres to children's advocacy according to their abilities and characteristics.

After school day service with the theme 「The sky's the Limit」

Support for children with special needs [MISORA]

This service is mainly for children with pervasive developmental disorders from 1st-year elementary school to 3rd-year high school.

A junior high school requested a "special education needs supporter", and with the approval of the Osaka Prefecture Board of Education, our staff began to be involved in the work.

Another junior high school also requested for a "work experience learning" school event.

Another junior high school requested a lecture about the characteristics of the disability that catered about 300 students.

Organization Chart

We are currently developing 8 (eight) departments.
 With the addition of foreign staff, we have established a research environment for the world's welfare and education systems to take a step forward for better support.

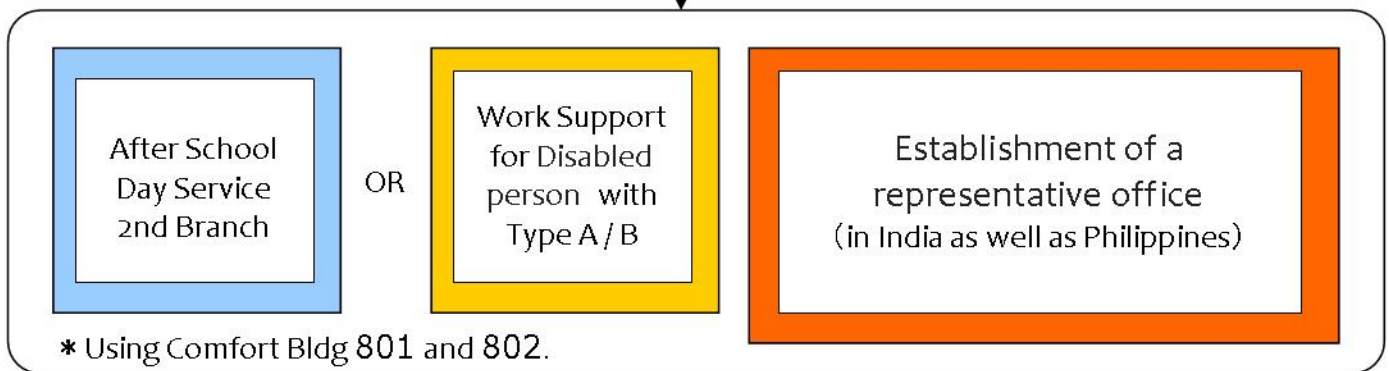

Company President Kimura Sanae

Department Manager Matsumoto Keiji

Business plan in the near future

The welfare worker is like a farmer, one must be a good seeder and dig the earth with virtue.

Our company is attaching importance to "The principle of educational background is not Alma mater overemphasis" and "People who can be friends are people who can share the same sense of values."

The personnel should set the learner profile's 10 attributes which are the following:
「Reflective」 「Inquirers」 「Knowledgeable」 「Thinkers」 「Communicators」
「Principled」 「Open-minded」 「Caring」 「Risk-Takers」 and 「Balanced」 .

We also emphasize the diversity of values and adherence to advocacy. Thus, if the manual interferes, it is considered useless and it is not made. Instead, we recommend Og Mandino's books.

There is no manual and there is no business and sales quota. Even there is no business and sales quota, the second greatest thing in the world can be done. On the other hand, the five customs of "Humanity, Righteousness, Gratitude, Wisdom, Faith" are required.

Therefore, we are a company that requires advanced reasoning, common sense, life knowledge, intelligence, dignity, judgment, problem-solving ability and others.

The things to do are simple, but in order to carry it out, one needs wisdom and scheme. However, it is not enough, as in the deity book, says, "Even if there is wisdom or learning in the world, things can not be done without high integrity and execution." and the principle of action that combines high integrity and execution is required in the workplace.

It is only after that the system that brings happiness to humanity will be ignited, driven, breathe and propagate life, and circulate.

We are under such management philosophy these 10 (ten) years. Without hiring personnel, leaving it to the will of Heavens, people linked by faith are gathered. We are blessed with friends who share the pain together. Sweating on the forehead to cultivate the land to sow seeds that live well. Not neglecting care and praying for a richer fruit. Also, supporting each other's strong and weak points, we wish to grow into a larger tree.

10 (ten) years from now, no matter what world the world will be, no matter how long you walk the loneliness, we will do what we have to accomplish so that each day will be cherished, and we will strive hard to be good neighbors.

Writer Matsumoto Keiji
Translator Arceo Lacey

Greatness lies, not in being strong, but in the right using of strength.

Henry Ward Beecher
